

Happisoy Global is a global B2B supply platform

specializing in wholesale and outsourcing services across lighting, consumer electronics, industrial hardware components, and authorized aviation parts.

We serve clients worldwide — including lighting distributors, retailers, home improvement chains, digital device dealers, e-commerce sellers, supermarkets, and public-private partnership (PPP) projects.

Global Sourcing, Smart Supply — our promise. By integrating cross-border supply chains and leveraging end-market demand, we help brands expand globally while delivering high-quality, cost-effective products to our customers.

Our goal is to become the go-to B2B platform for commercial, industrial, and individual buyers, offering one-stop procurement and customized wholesale solutions.

2.3.5.1 Local Control Panel (LCP)

The **LCP** consists of two separate boards:

- Local Control CPU board (LC-CPU)
- Local Control Interface (LCI)

The location of the **LCP** is shown Fig. 2-6.

NOTE: The **LCP** (Ref. No. 83135 21004) comprises the updated LC-CPU (83135 21404) with an advanced CPU board. The **LCP** is backward compatible to the Ref. 83135 21002 and 83135 21003.
